From: Commanding General, Marine Corps Base, Camp Lejeune  
To: Commanding General, 2d Marine Division, FMFLant, Camp  
Lejeune, North Carolina 28542

Subj: ENVIRONMENTAL PROTECTION MEASURES

Ref: (a) BO 11015.6

Encl: (1) Violation to Revised Biological Opinion for the Red-  
Cockaded Woodpecker, Violation Report No. 1-85

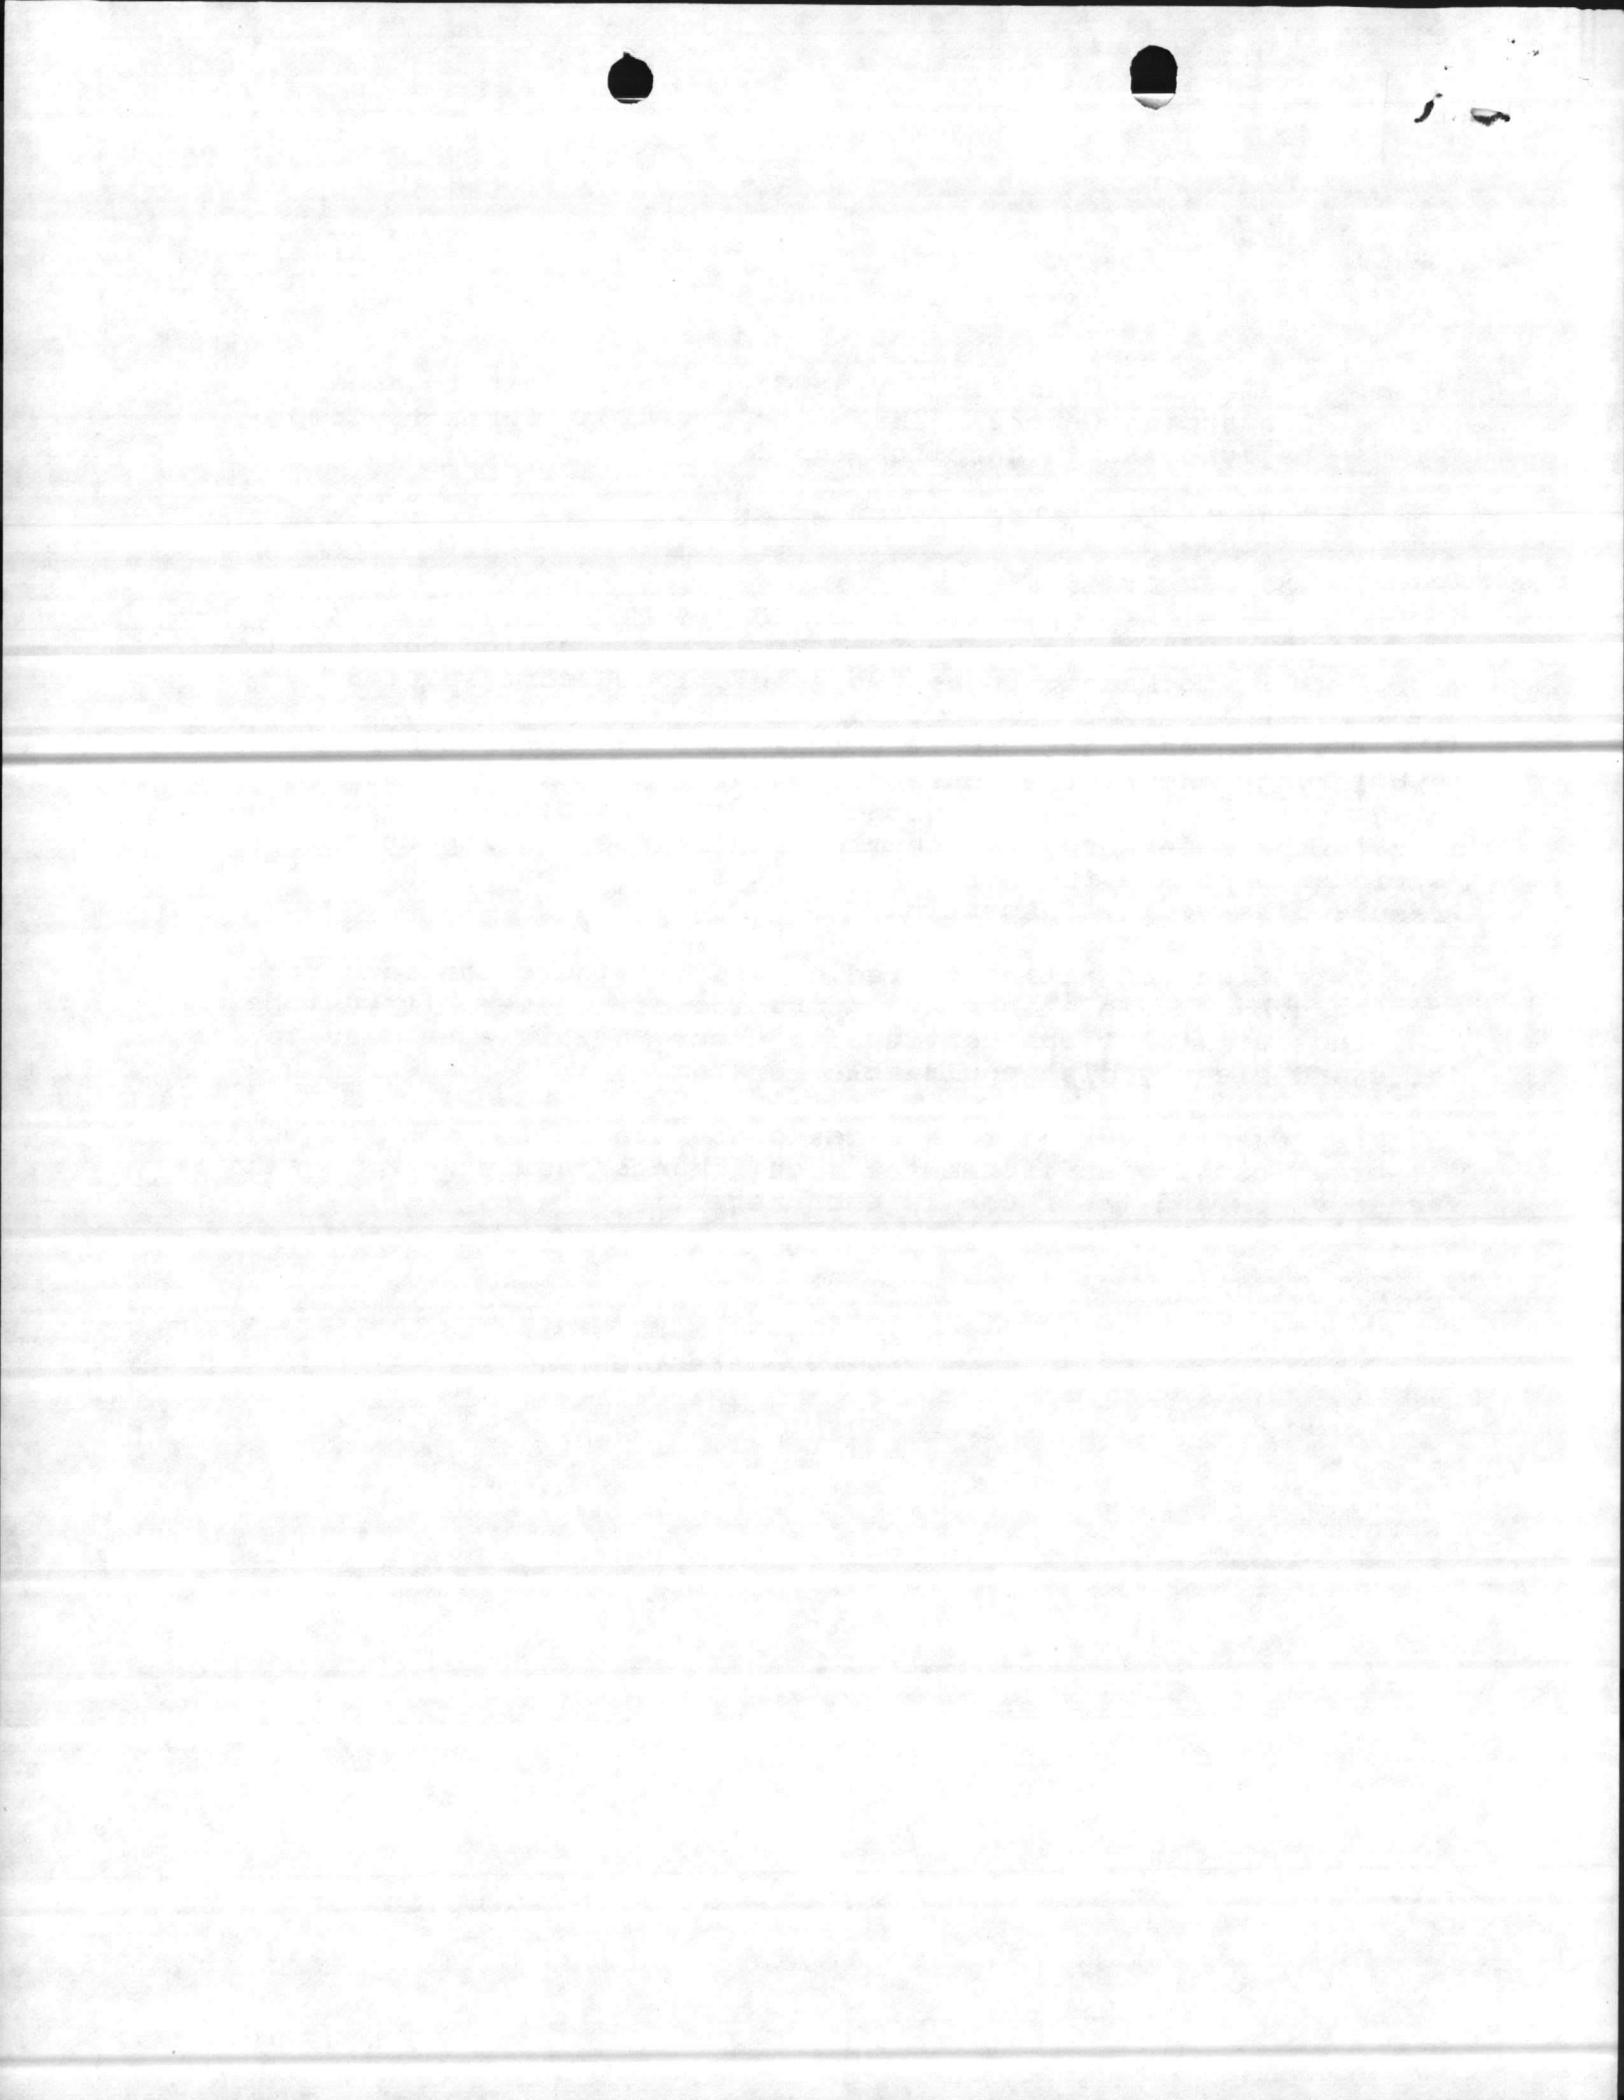

1. The reference sets forth regulations and establishes responsibility to ensure the conservation of Red-Cockaded Woodpeckers at Camp Lejeune. Weekly inspections are conducted, as provided for in the reference, to document and reduce the impact to restricted habitats from training activities. The enclosure is the result of a weekly inspection.

2. Attention and action to reduce and eliminate the recurrence of the subject violations are appreciated; however, it must be pointed out violations continue to occur in this area despite its size and clearly distinguishable markings.

3. Representatives of this command are available, upon request, to brief/clarify environmental requirements/regulations to all range users and their use is encouraged.
